What Participants Have Said!

I enjoyed the opportunity to discuss issues amongst myself and others ❖ I also enjoyed working with the instructor to receive feedback on our comments.

Boston Scientific Corp., Karen Hickey, Quality Assurance Supervisor

Mr. Schwartz is very knowledgeable and personable, and keeps the subject matter from getting too "heavy".

Boston Scientific Corp., Ruth Kane, Assoc., Manager, Print & Advertising

The exercises, videos and handouts, along with the presenter, provided just the right mix ❖ They made the program extremely effective and quite valuable.

Wang Laboratories, James E. Duane, Research Assistant

Everyone will pick up some information that will help them ❖ I received affirmations that I am on the right track with good instincts and new information that I can use immediately.

Sandoz Chemicals Biotech, Diane Williams, Project Leader

The instructor was very knowledgeable and presented concepts well ❖ I learned that communication is the key to successful management.

Calgon Carbon Corporation, Thomas Harting, Staff Chemist

I have received enormous benefit from your programs; new techniques to try and self-evaluation to sort out my strengths and weaknesses.

Monson Corp., Michelle Goyette, Controller

The seminar is very thought provoking ❖ Has just the right amount of humor to keep the serious subject matter interesting ❖ It takes the seemingly impossible job of managing and breaks it up into components that are easier to deal with ❖ The course should be required for anyone managing ❖ In one word -- EXCELLENT.

Leeman Labs, Manny Almeida, Tech. Support Manager

Being a new manager, this program gave me the opportunity to get off on the right foot in this stage of my career. Now I know the best way to handle these challenging situations and not to make the same mistakes I have seen managers in the past, make with me.

PLC Medical, Lisa Ares, Senior Clinical & Regulatory Specialist
